- **8-speed automatic
transmission**
 - Electronically
controlled with
overdrive
 - Tow/Haul mode
 - Raises transmission
upshift points to
provide more power
to accelerate with a
trailer or heavy load
 - Raises downshift
points to use engine
compression to help
slow the truck instead
of merely braking

Powertrain Grade

– Powertrain Grade

Braking

- Automatically uses the engine and transmission to slow the truck to maintain desired speeds when driving downhill
- Reduces brake wear and increases vehicle control
- Cruise Grade Braking
- Downshifts automatically to slow the truck as it drives downhill if it exceeds the cruise set speed by a certain amount
- May require additional optional equipment

- **6250 lbs. GVWR**

- When properly equipped; includes weight of vehicle, passengers, cargo and equipment
- May require additional optional equipment

- **3.42 rear axle ratio**
 - May require additional optional equipment
- **2.7L Turbo High-Output engine with 430 lb.-ft. torque**
 - 310 hp [231 kW] @ 5600 rpm
 - 430 lb-ft of torque [583 Nm] @ 3000 rpm
 - Paired with a 8-speed automatic transmission
- **Engine control stop/start with system override**
- **Engine air filtration monitor**
- **Push Button Start**
- **Automatic Stop/Start**
 - At complete stops, when drivers keep their foot on the brake pedal, and under certain conditions, the engine shuts off

Engine Starts On

- When drivers remove their foot from the brake, the engine automatically restarts
- Includes disable button with each engine cycle

- **Hill Descent Control**

- Uses antilock braking to help provide a smooth, controlled descent
- Helps driver maintain control of the vehicle without depressing the brake pedal

- **Autotrac[®] 2-speed transfer case with push button controls**

- 4-button control 2WD, Auto, 4WD, 4WD LO
- 2WD High for most on-road and highway situations
- 4WD High for snowy or wet roads when added traction is

added traction is

needed

- 4WD Low for deep sand, mud or snow to provide maximum torque to all 4 wheels
- When in AUTO mode, remains in 2WD mode until the system detects wheel slippage
- Automatically engages 4WD until traction is regained

- **Driver-selectable full-locking front differential**

- When activated, locks both front wheels to turn in unison
- Increases traction in off-road situations

- **Driver-selectable full-locking rear differential**

- When activated, locks both rear wheels in

unison

UNISON

–Increase traction in
off-road situations

- **Four wheel drive**

- **Heavy-duty 800 cold-
cranking amps
battery**

–Maintenance-free
with rundown
protection and
retained accessory
power

- **220-amp alternator**

–May require additional
optional equipment

- **Radiator Grille
Shutters**

–Automatic

- **Vehicle health
management**

–Provides advanced
warning of vehicle
issues

- **In-Vehicle Trailering
App**

- Checklist¹
- Trailer light sequencing
- Trailer maintenance reminders
- Trailer security alerts
- Trailer mileage
- Tow/haul reminder
- Trailer electrical diagnostics
- May require additional optional equipment

¹ App functionality and features vary with vehicle equipment and trim level. Device data connection may be required. Available on select Apple and Android devices. Some features require connected vehicle services trial or active plan and working electrical system.

- **Hitch Guidance**

- Displays a guideline on the Rear Vision Camera view when you're in Reverse to

help line up your hitch

help line up your hitch

to your trailer¹

- When driving, Hitch Guidance allows you to briefly check your trailer using the Rear Vision Camera view

¹ Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather, and road conditions may affect feature performance. Read the vehicle's owner's manual for more important feature limitations and information.

- **Integrated trailer brake controller**

- Integrated with the antilock brake system (ABS)
- Helps provide

measured brake force

measured brake force
signaling to electric-
controlled trailer
brake systems

- Trailer gain and output are displayed in the Driver Information Center
- No requirement for external or aftermarket brake control systems
- May require additional optional equipment

- **Trailering Package**

- Includes a 2" receiver hitch, 4-pin and 7-pin connectors
- 7-wire electrical harness and 7-pin sealed connector for connecting your trailer's lights and brakes to your vehicle
- 4-way sealed connector for use on trailers without brakes to hook up parking

lamps, brake lamps

ramps, brake ramps
and right and left turn
signals

- Automatic locking
rear differential
- May require additional
